"A huge shoutout to the R&R team! I have personally used you for our furnace and air conditioning units and maintenance (cleaning) & referred you to others. I have an elderly friend with high anxiety, she is on the list for regular tune-ups. Your staff went out of their way ... to give her peace of mind ... Thank you for taking care of your clients. This is not the first time you have gone out of your way, above the call of duty! Feeling confident and inspired by the way you care for our community in Grand Rapids!"
